

SPECTRUM SERIES®

Continuous Flow

Offering outstanding comfort, a low-profile fit, unparalleled visibility, simplicity, and 1,000 Assigned Protection Factor. A respirator that fits your face, your hands, and your high expectations.

Protection

- NIOSH Approved. See back for TC numbers
- 1,000 Assigned Protection Factor (APF)
- ANSI/ISEA Z87+ 2010 Impact Face Protection

Comfort

- Lightweight silicone flange seals softly against the user's face without feeling slippery
- Double flange provides a secure, comfortable fit across a wide range of facial sizes and contours
- Personal cooling and warming devices allow the user to adjust the temperature of the incoming air by 30°F or more

Low Profile

- Allows users to get close to their work and fit into tight quarters
- Reduces snag hazards
- Compatible with hard hat donning

Visibility

- Optically correct lens provides superior peripheral vision
- Clear nose cup allows more light into the mask, minimizing the closed in feeling prevalent in other masks
- Mylar® Lens covers keep the lens clean and protected

Simplicity

- Snap together parts make assembly and maintenance quick and efficient without requiring special tools
- A single facepiece platform design allows for conversion to other respirator configurations

Versatility

- The Spectrum Full-Face mask allows for multiple configurations:
 - PAPR (with the Bullard EVA)
 - Continuous Flow - Ambient Air Pump
 - Continuous Flow - Compressed Air
 - Pressure Demand - Pressure Demand
 - Pressure Demand with Escape Bottle (5 or 10 min.) for IDLH
- Configure your system at BuildYourBullard.com

Applications

- **Painting**
- **Spray Foam Insulation**
- **Remediation**
